Sum Insured

You must ensure that your car is insured with the appropriate Sum Insured.

The Sum Insured is the maximum amount we will pay you in the event your car is stolen or destroyed by a covered event. There are 3 ways of establishing the Sum Insured for your car:

A. Agreed Value (B087 / V087)

This is the amount that you will be receiving before deducting Excess, if any in the event your car is stolen or destroyed.

How to insure your car on agreed value basis?

- i. The age of your car should be between 0 year to 15 years;
- ii. The make/model of your car must not fall within our excluded models, e.g., pickup trucks or high-performance sports vehicles;
- iii. Your policy sum insured may be based on the market value provided by the industry's ISM-ABI market valuation system or you may opt for any value within our Recommended Sum Insured Range in our point-of-sale system; and
- iv. The sum insured must be within RM15,000 and RM1,000,000.

B. Reference to Motor Vehicle Market Valuation System (B113 / V113)

The Sum Insured of your car shall be determined by the industry's ISM-ABI* market valuation system at the point of purchasing your policy and at the time of loss.

C. Market Value (B114)

Sum Insured on Market Value basis is generally used where market valuation of your car is not available in the ISM-ABI system. Market value generally refers to the reasonable cost to purchase another Car of the same make, model, age and general condition similar to your car, at the time of loss. The market value may be determined by the Head Office of the Car franchise-holder or by an Adjuster registered under the Financial Services Act 2013.
